

Mr. Dean Girdis's Curriculum Vitae

Dean Girdis is Director of the Gas and Power Group for PFC Energy specializing gas and power portfolio analysis, gas and power development in emerging markets and corporate and environmental sustainability.

Dean has 14 years of management consulting experience, principally in the energy sector. He worked independently for six years with a number of clients, most notably the World Bank and for the Chinese Government on the development of competitive gas and power markets in China. Prior to this work, Dean was an energy and environmental consultant at Arthur D. Little and Environmental Resources Management, working on energy financing and economics, corporate strategy, natural gas development and sustainable development.

He has a M.Sc. in Resource Economics and Policy from the University of London and a B.A. in Management from Babson College.

Company information

PFC Energy was established in 1984 and is one of the pre-eminent strategic advisory firms in global energy. Combining a detailed knowledge and understanding of markets, countries and competition, PFC Energy is recognized in the global energy industry for the depth of its analysis and the integrity of its advice.

PFC Energy is a respected and valued advisor to energy companies and governments across the globe. We advise on business development opportunities, upstream and downstream strategies, international gas and LNG strategies, power strategies, oil market and petroleum sector risk, and effective investor relations programs.

PFC Energy combines the skills and talents of professionals who bring experience and technical knowledge from having worked in the energy industry, government and the financial sector. Through these individuals, PFC Energy strives to deliver practical advice and solutions to real world issues and problems, thus providing our clients with the optimum energy practice.
