

# 26<sup>th</sup> World Gas Conference

1 – 5 June 2015, Paris, France

How gas could sustain its key role in an uncertain future.

Does our observation of a detail ...

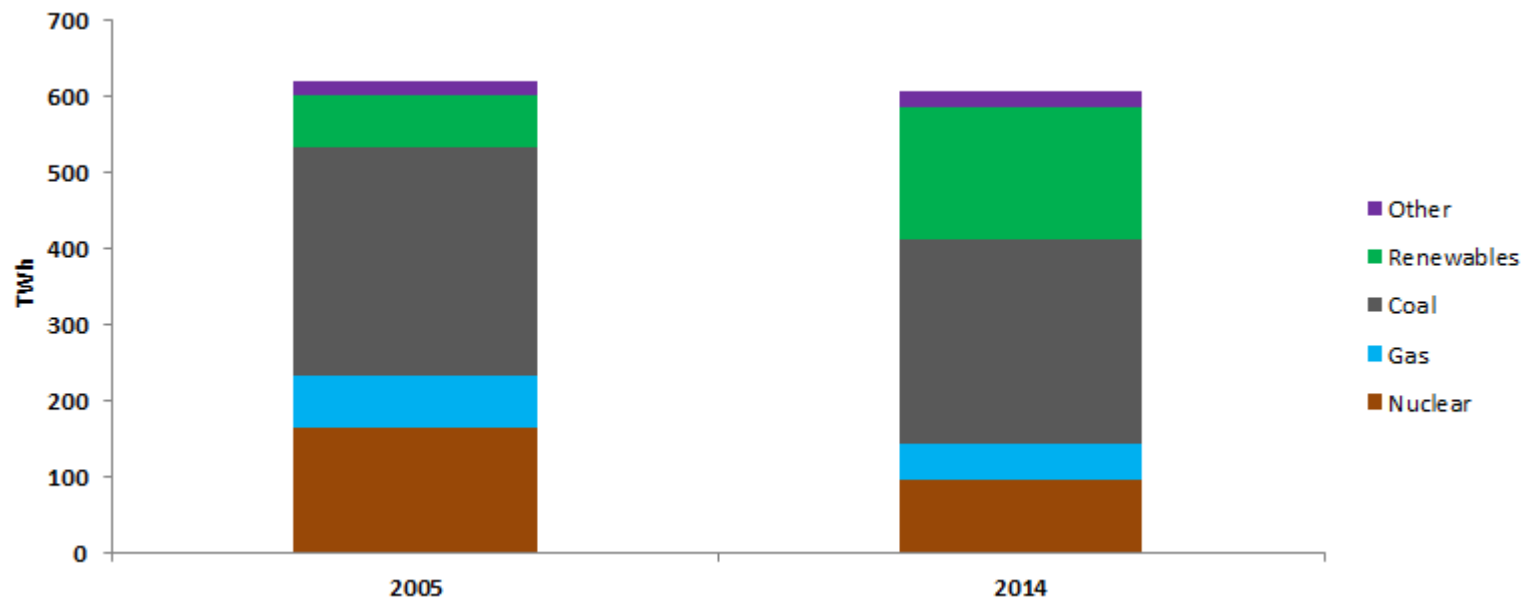

... allow us to see ...

# ... the bigger picture

# Expect the unexpected: the German power mix

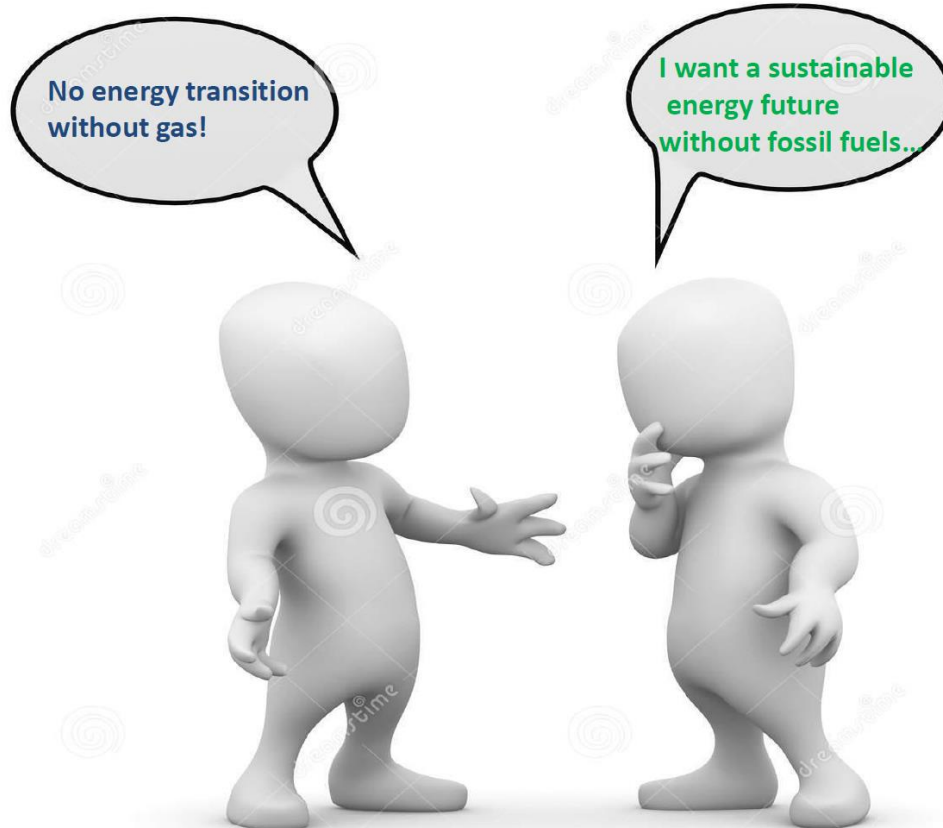

We should take action: embrace the hidden fuel...

... and listen to society – politically and at large

# No default role, but earning a social licence to operate

Never stop questioning will bring us our progress
