

INTERGAS MARKETING

Now transforming into the special IGU Marketing Committee (IGM)

22 August 2006

DRAFT

Procedures

for

The IGU Marketing Committee (IGM)

in the Transition phase 2006-2009

All IGU Members are encouraged to nominate Representatives to IGM, who are willing and able to participate directly and actively in the Work. Nomination of corresponding members is possible.

A work programme is decided upon in September 2006 to be approved by the Coordination Committee of IGU in October 2006.

Active members should normally also take part in a Study group.

IGM meets twice a year and Study groups will normally meet at the same time and place.

IGM elects from its midst a Chairman and a Vice-Chairman for the remainder of the Triennium.

The IGU secretariat assists the chairman in practical and administrative matters

The Chairman participates in the meetings of the IGU Coordination Committee.

At the regular Committee meetings participants may report on the development of the gas sector in their respective countries on a voluntary basis.

IGM may use external support in order to reach the desired objectives, such support to be paid from the Assets of Intergas Marketing, administered by the IGU Secretariat.

IGM may organise special events including a special Session at the next World Gas Conference subject to approval from the Chairman of the IGU Coordination Committee.

In the first half of 2009 IGM will evaluate the results obtained so far and on that basis report to the IGU management with proposals concerning the future of IGM.
