Brazil

GDP: US\$ 2.1 trillion;

World's seventh largest economy;

Current Oil & Gas Scenario

Proven Reserves:

Oil – ~15 billion bbl

Gas – ~ 459 billion m³

Production:

Oil – ~ 2.1 bbl/day

Gas – ~ 66,0 million m³/day

Consumption:

Oil – ~ 1,9 bbl/day

Gas – ~73,7 M m³/day (39,3 national + 34,4 imported)

Refining capacity– 2,1 bbl/day

Refineries - 14 units

Service stations – 39.027

Pipelines – 19.715 km (9.306 gas)

2 LNG Regas Terminals – 21 MM m³ capacity

NGV converted fleet – 1,7 million vehicles

NGV fuels stations – 1.701

Biodiesel production – 2,7 M m³

Ethanol production -14,2 M m³

Potential of the Brazilian Petroleum Industry

29 Sedimentary Basins covering
6,4 million km²

2012

3 bidding rounds

- . Concession - May
- . Pre Salt - November
- . Unconventional Gas - December
