

North Africa has seen continued high levels of upstream activity with discoveries being made and new fields coming on-stream, despite many challenges arising from political turmoil. This region is set to continue playing a key role on the world energy stage for years to come.

The 8th edition of the [North Africa Oil and Gas Summit](#) colocated with the [North Africa Unconventional Seminar](#) will gather together **300+** high level representatives from key stakeholders that include the **Ministry of Industry Tunisia, ETAP, ATPG and ENIT (National Engineering School of Tunis), BG Group, Shell, Total, Repsol, Sonatrach, NOC Libya, OMV, Schlumberger, Petrofac DNV OMV** and many more.

Join them to assess growth potential in the region, new power dynamics and investment paths, which will help inform your business strategy for 2014 and beyond.

Take part in the 2013 North Africa Oil & Gas Summit and you will:

Hear from the different North African Ministers on their respective energy strategy and gain a better understanding of their needs and expectations

Discuss best practices strategies to become a real partner of the host country and improve the way you work with local communities

Understand opportunities in deepwater offshore and mature fields development

Reduce costs and schedule failures in projects by identifying and prioritising environmental and social risks

Realise the potential of unconventional.
